

## My Generation Rx Questions and Answers for Provider FAQ

Webinar Date	Question/Comment	Answer/Response	Respondent
4/2/2019	What was the full name of the study?	The Partnership Attitude Tracking Study funded by the MetLife Foundation available at: <a href="https://drugfree.org/wp-content/uploads/2014/07/PATS-2013-FULL-REPORT.pdf">https://drugfree.org/wp-content/uploads/2014/07/PATS-2013-FULL-REPORT.pdf</a> .	Ohio State University – College of Pharmacy
4/2/2019	On the Generation Rx website, where do I locate the Q & A Session Guide?	The Q & A Session guide can be found on Page 7 of the Comprehensive Facilitator Guide (available here: <a href="https://www.generationrx.org/wp-content/uploads/2015/05/6.ComprehensiveFacilitatorGuide.pdf">https://www.generationrx.org/wp-content/uploads/2015/05/6.ComprehensiveFacilitatorGuide.pdf</a> )	Ohio State University – College of Pharmacy
4/2/2019	We are wondering why underwear was chosen to use as an example? Thank you.	Underwear is something that is widely accepted as being for personal use only, a sentiment that remained true when talking to focus groups. As an opportunity for engagement, feel free to focus on other personal use items (toothbrush, etc.) or have teens generate ideas for themselves!	Ohio State University – College of Pharmacy
4/2/2019	Not a fan of the underwear image/referrals. Was this focus grouped?	This was a part of the toolkit when focus grouped, as underwear are something that teens identify as for personal use only. As an opportunity for engagement, feel free to focus on other personal use items (toothbrush, etc.) or have teens generate ideas for themselves!	Ohio State University – College of Pharmacy
4/2/2019	Hoping how to do the activities with larger group assemblies will be discussed?	There are a few ways to conduct an assembly style program—we would recommend that you cover the Medication Safety presentation, as this sits the foundation for several activities. You could then consider modifying the “Champions of Rx” game for crowd responses and/or volunteer participation in small teams. Tip: You can utilize the Minute Activities to offer a more versatile experience; consider having multiple adults on hand to help facilitate in a large crowd.	Ohio State University – College of Pharmacy
4/2/2019	Has there been research to show outcomes?	Yes, student outcomes related to the teen toolkit have been documented through grant-funded projects in Ohio and beyond. We are currently collaborating with our partners at Cardinal Health Foundation, the OSU College of Social Work, and OSU Extension to formalize our findings and publish our recommendations for use of Generation Rx across the lifespan. Please contact us at <a href="mailto:info@generationrx.org">info@generationrx.org</a> if you have additional questions or concerns.	Ohio State University – College of Pharmacy

## My Generation Rx Questions and Answers for Provider FAQ

4/2/2019	All material and PowerPoints are free and downloadable from Generation Rx website?	Yes, all materials and presentations are available at <a href="http://www.generationrx.org">www.generationrx.org</a> free of charge.	Ohio State University – College of Pharmacy
4/2/2019	Can this video link also be added to the FAQ? I am unable to see the video.	Here is the link to the Vimeo homepage for Generation Rx: <a href="https://vimeo.com/generationrx">https://vimeo.com/generationrx</a> . Here you can find both educational and informational videos that will be helpful in delivery of Generation Rx, including the Mission Video ( <a href="https://vimeo.com/280416390">https://vimeo.com/280416390</a> ) and Beat the Buzzer Video ( <a href="https://vimeo.com/275888296">https://vimeo.com/275888296</a> ) used during the webinar.	Ohio State University – College of Pharmacy
4/2/2019	So, you have the materials in Spanish?	Yes! The toolkit is available in Spanish as a .zip file for download free of charge at <a href="https://www.generationrx.org/toolkits/teen/">https://www.generationrx.org/toolkits/teen/</a> . Scroll down to #4 and you will find it located in the “Generation Rx Teen en Español” section.	Ohio State University – College of Pharmacy
4/2/2019	It was my understanding for this grant we are to reach 250 students over 3 sessions. Are the smaller groups break out groups? Also, is it the same 250 students 3 times or total of 250 students?	Each provider is required to reach a minimum of 250 youth. Each youth is to receive 2-3 sessions developed from the My Generation Rx toolkit. Within those 2-3 session you may break out into smaller groups and conduct some of the smaller group exercises.	Illinois Department of Human Services SUPR
4/2/2019	Is it acceptable to deliver this program in a large group assembly with 100 or more students?	Yes, it all depends on what the organization develops from the My Generation Rx toolkit.	Illinois Department of Human Services SUPR
4/2/2019	Can we run a program all summer and count the July and August presentations for FY20?	No, all youth must receive the My Generation Rx programing during FY19 which ends June 30, 2019.	Illinois Department of Human Services SUPR
	Confirming that one 60-minute session for 250	All guidance sent from IDHS/SUPR has referenced 2 to 3 sessions, again depending on what the organization develops using the My Generation Rx toolkit.	Illinois Department of Human Services SUPR

## My Generation Rx Questions and Answers for Provider FAQ

	youth would fulfill grant requirements? If not, what other sessions are recommended if time is limited?		
4/2/2019	Is only one day required per group?	Each youth is to receive 2-3 sessions developed from the My Generation Rx toolkit. If you can provide each youth with the sessions developed during a one-day event it would be acceptable. Each youth must receive the total number of developed sessions.	Illinois Department of Human Services SUPR
4/2/2019	Of the 5 listed activities, we need to have 250 students engage in at least 2, including the presentation?	You are to design 2-3 sessions from the My Generation Toolkit. It is up to you what activities you incorporate from the toolkit into your sessions.	Illinois Department of Human Services SUPR
4/2/2019	How/where do we report the students we visit?	You will be reporting the information in the Prevention Hub. Please maintain attendance records for all youth who attend. <i>Note: See message below regarding Tracking/Reporting Forms.</i>	Illinois Department of Human Services SUPR
4/2/2019	What are the specific requirements that we need to deliver as an agency?	<ul style="list-style-type: none"> <li>-Design 2-3 sessions from the My Generation Toolkit.</li> <li>-Provide the 2-3 sessions to 250 youth</li> <li>-All 250 youth must receive the 2-3 sessions</li> <li>-Track and report youth attendance in the Prevention Hub</li> <li>-Complete and submit monthly expenditures associated with My Generation Rx on the separate designated My Generation Rx Monthly Expenditure Payment Voucher which will be part of the current SAPP MEPV</li> </ul>	Illinois Department of Human Services SUPR
4/2/2019	We are trying to decide which activities to implement and were wondering if using two "Minute Activities" counts as one activity. Per the grant requirements it says that we are required to implement two to three activities but were	Providers are required to do 2-3 sessions, approximately an hour each. During these sessions, Providers can incorporate the "activities" such as the "Minute Activities" but the activities alone do not meet the session requirement.	Illinois Department of Human Services SUPR

## My Generation Rx Questions and Answers for Provider FAQ

	unsure as to whether doing a couple of the Minute Activities would count as an activity or not. Please let me know if this is an option.		
4/2/2019	How do we track and report attendance?	<p>Regarding forms for tracking My Generation Rx implementation, there are optional forms available on the Help page of the Prevention Hub under Data Collection and Reporting Forms that providers can download and tweak to fulfill their needs. Two of the forms that may be helpful for tracking My Generation Rx are listed below. The link below is the new website address for CPRD.</p> <p>SAPP Cycle Tracking Form SAPP Weekly Time &amp; Population Tracking Form – Individual Staff</p> <p><a href="https://appsts.cprd.illinois.edu/PreventionHub/Default.aspx?ReturnUrl=%2fPreventionHub%2f">https://appsts.cprd.illinois.edu/PreventionHub/Default.aspx?ReturnUrl=%2fPreventionHub%2f</a></p>	Center for Prevention Research and Development (CPRD)
4/2/2019	I was unable to see the "beat the buzzer" video. The first video/audio was perfectly fine.	<p><a href="https://vimeo.com/275888296">https://vimeo.com/275888296</a></p> <p><a href="https://www.youtube.com/watch?v=srCXeAG-iNQ">https://www.youtube.com/watch?v=srCXeAG-iNQ</a></p> <p>The video links will be posted within the <i>My Generation Rx</i> FAQ. Please see links above.</p>	Prevention First
4/2/2019	.... we are beginning to implement next week. our schools are wrapping up soon.	<p>We will work as quickly as possible to post the FAQ on PF-Groupsites. <i>(NOTE: Please refer to correspondence and guidance from IDHS-SAPP sent via email to agencies/providers on 1/4/2019.)</i></p>	Prevention First
4/2/2019	The youth toolbox is up to 5 <sup>th</sup> grade and the teen one	Everyone is to use the teen curriculum.	Prevention First

## My Generation Rx Questions and Answers for Provider FAQ

4/4/2019	How soon can you implement the 2-3 sessions? Once per week? Or can they be implemented more often?	The design of the sessions will be up to the organization, keeping best practices in mind.	Illinois Department of Human Services SUPR
4/4/2019	As for implementation: are we required to have small group time? or can we do strictly assembly-type presentations 2 or 3 times to the same 250? Also, how do I document or verify that the 250 students are the same 250 students?	<p>Please keep in mind that best practices should always be followed. We are not dictating what the organization develops other than it be 2 to 3 sessions long.</p> <p>Maintenance of all back up documentation is required. Sign-in sheets would be the easiest way to verify reach across sessions (same youth sign in for each session).</p>	Illinois Department of Human Services SUPR
4/4/2019	Can you implement two lessons in one day?	Yes, keeping best practices in mind.	Illinois Department of Human Services SUPR
4/4/2019	How do we track and report attendance?	<p>Regarding forms for tracking My Generation Rx implementation, there are optional forms available on the Help page of the Prevention Hub under Data Collection and Reporting Forms that providers can download and tweak to fulfill their needs.
