

BINGE DRINKING FACTS

What is Binge Drinking?

1

Binge drinking is defined as consuming five or more standard drinks per occasion for males and four or more drinks for females. A standard drink is 12 oz. of beer (5%), 5 oz. of wine (12%), or 1.5 oz. of distilled spirits (40%).

2

What does the data say?

The 2019 National Survey on Drug Use and Health (NSDUH) found that 23.9% of people 12 years and up binge drank in the past month. However, for 18-25-year old's, the rate jumps to 34.3%.

The Illinois Youth Survey includes binge drinking as well. In 2018, 20% of Illinois 12th graders binge drank in the past two weeks. For 8th and 10th graders, the rates were 5% and 9%, respectively.
